# Timing diagram : Write_transfer_ERROR

Step 3:

**Error occured during write transfer on server side**

⑥ File not found for writing on the server side if the file has been deleted during the transfer

⑦ Disk full while writing into the file from server side

or you can have step 4 error :

Error occured during transfer of write request on client side

⑧ File not found for reading on the client side if the file has been deleted during the transfer
